

AI Agent Insure

Insurance for Agentic AI Builders

Incident Response & AI Crisis Management

Overview

Provides rapid response during AI-driven operational failures or emergent agent misbehavior.

Key Coverage Details

- 24/7 crisis hotline and agentic containment protocols.
- Root-cause analysis including hallucination tracing and model misalignment diagnostics.
- Public relations and customer-impact mitigation services.

Real-World Scenarios in Agentic AI Environments

- An AI agent begins looping tasks and flooding downstream systems.
- A hallucinating customer-facing bot spreads critical misinformation.
- A multi-agent workflow collapses due to a corrupted memory state.
