

1 Coverage Boundary Playbook

This document explains edge-case scenarios, clarifies what is covered vs. excluded, and provides customer-friendly explanations for difficult boundary cases.

Key areas:

- Intent vs. system behavior
- Hallucination-induced actions
- Autonomous system misfires
- Human override complications
- Third-party vs. first-party liability

Examples include:

- Ambiguous AI recommendation outcomes
- Partial agent workflow failures
- Multi-agent chain-of-responsibility issues
