

AI Agent Insure

Insurance for Agentic AI Builders

Compliance & Regulatory Shield

Overview

Provides legal and operational protection related to evolving AI regulations worldwide.

Key Coverage Details

- Covers penalties for improper transparency disclosures and audit failures.
- Supports regulatory alignment with frameworks such as the EU AI Act and NIST AI RMF.
- Includes high-risk system classification guidance and documentation support.

Real-World Scenarios in Agentic AI Environments

- A regulator finds missing documentation for a high-risk AI system.
- A company fails a compliance audit due to poor model-risk reporting.
- An AI explanation requirement is violated, triggering fines.
